1) My Favorite Dialogue and Why?

One of the most powerful moments in *Schindler's List* is when Oskar Schindler, overwhelmed with guilt, breaks down and says:

"I could have gotten more... I don't know. If I just... I could have gotten more."

This moment is heartbreaking because, despite saving over a thousand lives, Schindler regrets not doing even more. It perfectly encapsulates his transformation—from a businessman profiting off the war to a man who values human life above everything. This dialogue stays with me because it shows the weight of conscience and the realization that material wealth means nothing in the face of human suffering.

2) Personal Review

Schindler's List is a masterpiece, and every aspect of it—acting, direction, cinematography, and music—contributes to its emotional weight.

Liam Neeson as Oskar Schindler delivers one of the finest performances in cinema history. His character's journey from an opportunistic businessman to a savior of over a thousand Jewish lives is deeply moving. Ralph Fiennes as Amon Goeth is terrifying, portraying the embodiment of cruelty with chilling precision. Ben Kingsley's portrayal of Itzhak Stern brings quiet strength and resilience to the story.

Steven Spielberg's direction is masterful. The stark black-and-white cinematography intensifies the rawness of the film, making it feel even more haunting. One of the most unforgettable artistic choices is the girl in the red coat. She stands out in a world stripped of color, symbolizing innocence amidst horror, and her fate is a devastating reminder of the brutality of the Holocaust.

The film doesn't just depict history; it makes you feel it. The haunting images, the devastating moments, and the sheer human cost of war make *Schindler's List* not just a movie, but an experience that lingers long after the credits roll.
